After countless hours of meeting with various stakeholders in our educational community and analyzing the feedback from parents, students, and staff we concluded that returning to school with the remote learning plan was our best option. We thank you for your feedback and voice throughout the Re-entry planning process. We will implement our Remote Learning plan with rigor and high expectations. It is our goal to provide quality teaching and learning experiences for the growth and development of our students.

We will have plans that will allow us to prepare for changes throughout the 2020-21 school year. South Holland School District 150's **RETURN TO SCHOOL PLAN FOR THE 2020-21 SCHOOL YEAR**, will be complete with detailed plan components and FAQ's. This document will be published on our website for families and staff to review on or before August 3rd. We are asking parents and guardians to carefully read this plan for the awareness of procedures and expectations for each of the learning models. Give special attention to the Remote Learning Model, which will begin our school year for all staff and students. All students, no matter which model they are participating in, will be provided with a district-issued iPad. We have prepared a [Return to School Plan At-A-Glance](#) to give you information for our first quarter return. See Link enclosed.
